Healthcare Provider ACP Survey (Post-Intervention)

We would greatly appreciate your participation in this questionnaire about advance care planning and goals of care designation in [enter location/setting]. It doesn't matter how much you know about these topics, we need your opinion as someone working in healthcare.

Advance care planning (ACP) and goals of care designation (GCD) are parts of a larger process.

We describe these terms as follows:

ACP is a way to help patients think, talk about and document wishes for their health care.

GCD are medical orders used to describe and communicate the general aim or focus of care including the preferred location of that care.

In this questionnaire, we are interested in:

- (1) Your professional perspectives and experience of ACP and GCD.
- (2) Your suggestions to improve awareness, acceptability and ease of use for ACP and GCD in Alberta.

This questionnaire will take approximately 5 minutes to complete.

If you have any questions or concerns please contact [clinic manager/study investigator].
