

Vascular Imaging Research Meeting

9h30-11h00 Monday (exceptions noted)

FMC MRG029 (Seaman Centre Conference Room) or by Zoom (see invitation for link)

We meet as a group each week for a variety of reasons. All have tremendous value and will enhance our collective scientific growth. Goals of our weekly meeting include:

- To discuss the various research activities on going within the group,
- To understand complementary ideas outside of your narrow area specific research, and
- To expand your background knowledge base

It also provides a guaranteed time for me to meet with everyone once a week. (Though I am always available by email and additional meetings can be arranged as necessary).

(In case anyone was wondering, graduate school/research fellowship training is not simply about completing a few courses and slapping together a thesis. It is one of the few times in your life that you will actually be encouraged to pontificate/speculate/chat about things – take full advantage of these opportunities – you never know when you will use them).

Objectives of Teaching Sessions

- Raise the level of general knowledge across the group through formal educational presentations on selected topics
- Ensure broad competency in key areas across the research group
- Learn by teaching

Objectives of the Paper Review

- Provide a forum to stay current on the literature in this important field, or review seminal papers
- Develop critical skills in reviewing the literature
- Allow for interactions with other research groups in the field

Objectives of Research Project Proposal

- Discuss a proposed research project (thesis project or otherwise)
- Provide feedback on research idea and proposed methodology

Objectives of Works-in-Progress (WiP) Talk

- Present an on-going project
- Allow discussion of results (good and bad) in context of project proposal hypotheses

Objective of Work-completed Research Talk

- Presentation of a complete project (abstract, paper, presentation, thesis) prior to submission
- Discussion around the research conclusion and discussion

The Monday's meeting schedule is found in the next page.

Summer Schedule

Date	Topic	Presenter
8 May 2023	Organizational Meeting	Kaue
15 May 2023	Computer Neuros Workshop	No meeting
22 May 2023		No meeting
29 May 2023	SmallPresentation - Bento-Souza-Frayne	All Summer students
5 June 2023	Group Hike	No meeting
12 June 2023	Revised Research Proposal - TBD	Susanne
19 June 2023	Teaching Session - Machine Learning	Kaue
26 June 2023	Teaching Session - MR Safety	Sean & Rachel
3 July 2023	Holiday	No meeting
10 July 2023	PhD First Draft Proposal*	Abhi
17 July 2023	Research Update	Natalia
24 July 2023	Research Update	Kaue
31 July 2023	Summer Students - Initial Results Part1	All summer students
7 August 2023	Holiday	No meeting
14 August 2023	Summer Student - Initial Results Part2	All summer students
21 August 2023	Research Update	Sean
28 August 2023		
04 September 2023	Holiday	No meeting
11 September 2023	Research Update	Rachel
18 September 2023	Postdoc Research Plan- TBD	Marco A.G. de Carvalho
25 September 2023		

Important Dates

Group Party after Abhi's convocation - 30 May 2023

Hike trip (place TBD) - 5 June 2023

Conferences

Deadline	Name	Place	Date
14 May, 2023	SMRA	Sendai, Japan	17-20 October 2023
7 June 2023	VASCOG	Goteborg, Sweden	13-16 September 2023
19 June 2023	SIBGRAPI	Rio Grande, Brazil	6-9 November 2023
05 July 2023	ISMIRM Workshop on Current Issues in Brain Function	Padua, Italy	04-06 September 2023

12 July 2023	ISMRM Workshop on WHATEVER: White Matter Analysis, Translation, Experimental Validation, Evaluation & Reproducibility	Nashville, USA	18-20 September 2023
15 July 2023	SIPAIM	Mexico City, México	15-17 November 2023
9 August 2023	SPIE. Medical Imaging	San Diego, USA	18-22 February 2024

Please, refer to the following link to assist, or help other students in the group
